

Imagine being told by an oncologist that you had 8-12 months until your child would pass away... I experienced this October 16th, 2021, when I was told my six-year-old daughter, Brayleigh King, had an incurable brain cancer called DIPG (Diffuse Intrinsic Pontine Glioma). Eight short months later after losing the ability to walk, talk, eat, and swallow, she took her last breath in my arms.

I have since teamed up with The Cure Starts Now, a charity that focuses on these rare pediatric brain cancers as a Wisconsin Chapter in honor of my late daughter. The Cure Starts Now focuses on fighting not just one cancer, but the elimination of cancer as a whole. Since Inception in 2007 we have been able to fund 105+ grants in 15 countries totaling over 21 million in research.

I choose The Cure Starts Now as 100% of tribute donations goes to research, and to honor the legacy of my forever 7-year-old daughter, Brayleigh.

With your help we pledge that the fight against cancer will be won. The Cure Starts NOW.

HELP FIND THE HOMERUN CURE FOR ALL CANCER.

Brayleigh King was a sparkling, energetic, happy 7-year-old, who loved unicorns, music, ice cream, her friends, and her family. Brayleigh's smile would light up any room and had a heart of gold. Her heart overflowed with kindness, and she set an example for all of us.

She valiantly battled for eight months before gaining her angel wings. Her whole life, she was applauded for her positive attitude and outlook on life, and she never let DIPG steal that from her. She was the strongest little girl and fought hard all the way up to her last breath. In honor of Brayleigh, we choose to continue her legacy by advocating for childhood cancer in hopes of finding the homerun cure.

The Cure Starts Now is an IRS recognized 501(c)(3) non-profit organization. All proceeds will go to The Cure Starts Now. **All donations are tax deductible in accordance with IRS regulations.**

The Cure Starts Now is an IRS approved 501(c)(3) FEIN 26-0269131

The Cure Starts Now (501c3 Federal Non-Profit) is one of the only cancer foundations dedicated to a “homerun” cure for all cancers, starting first with one of the most deadly and difficult cancers: pediatric brain cancer. Many experts believe that the lessons we learn from fighting pediatric cancer may in fact provide us the critical first step in winning the battle against all forms of cancer, both pediatric and adult.
